## UNDERGRADUATE COUNCIL <br> Request for Change(s)

Originating unit requesting change: Mathematics
Type of Change requested:

Course number(s)
Course title
Course description

$\square$
$\square$
$\square$
Course prerequisite(s)

Drop course(s)
Drop program(s)

X Program description
X Program requirements

Semester and year change(s) take effect: Spring 2022
Appropriate computer abbreviation if course title is more than 30 spaces:

Briefly summarize the change requested: Change Program Name and modify required courses for degree, including simplifying from two track options down to one.

Current Program Name: Mathematics, BS Actuarial Concentration
Proposed New Program Name: Actuarial Science, BS

## Programs Only

Program Name: $\qquad$ Mathematics, BS Actuarial Concentration $\qquad$
Current Code: $\qquad$ Proposed New Code (list 2): $\qquad$ or $\qquad$ (ex: INDE-BFA)

Can have second major: $\qquad$ Yes $\qquad$ No

Current CIP Code: $\qquad$ 52.1304 Actuarial Science

Does the change require a new or change in CIP code? $\qquad$ Yes $\qquad$ X No

If yes, what is the proposed CIP code? $\qquad$
*for reference, please visit: https://nces.ed.gov/ipeds/cipcode/resources.aspx?y=56

## Catalog copy

Present catalog copy (paste-up from catalog is acceptable.

Proposed change(s). (Include exact catalog copy as desired. Underline changes)

The catalog changes are attached as a separate
Word file, because the file is several pages.

1. What is the justification for the change(s) requested?

We want to change the degree name to align the name with national standards.
Regarding the request to slightly modify the list of classes in the BS degree our proposal is based on recent changes in the national Society of Actuaries (SOA) curriculum. In brief, the SOA curriculum is now increasing the focus on analytics and applied statistics. The two classes MATH 40853 and MATH 40883 have been recently approved as new courses in our department in response to these curricular trends.
2. If applicable, explain how the change(s) will affect the current program outcomes and assessment mechanisms.
Students in the Actuarial Science BS program will receive instruction and training in an additional component of the national curriculum. The assessment mechanism will remain the same, we can just add one component to the rotating list of items we assess.
3. Faculty Resources: How will the unit provide faculty support for this change and any other impact this change may have on other current departmental listings. Faculty resources will not be affected.

No impact - we had planned a couple of years in advance for the projected changes to the national actuarial curriculum. In particular, our last departmental hire was a faculty member with a PhD in Statistics.
4. Educational Resources: Will this change require additional resources not currently available (e.g. space, equipment, library, other)?
 YES If yes, list additional resources needed.
x NO
5. If this change affects other units of the University, include a statement signed by the chairperson(s) of the affected unit(s).
N/A
6. If cross-listed, provide evidence of approval by all curriculum committees appropriate to both the originating and cross-listed units. N/A

Revised 02/2020

## Current Catalog:

## Mathematics, BS Actuarial Concentration

## Requirements

Students seeking the BS degree are advised to consider an optional minor in economics. All actuarial students need to work closely with an adviser to plan course schedules.
Credit is not allowed for both MATH 10283 and MATH 10524.

## Mathematics Courses

The program of study requires a minimum of 46 hours, with a grade of C - or better, on a 124 -hour degree.

| MATH 10524 | Calculus I | 4 |
| :--- | :--- | :---: |
| MATH 20123 | Discrete Mathematics I | 3 |
| MATH 20524 | Calculus II | 4 |
| MATH 30053 | Introduction to Mathematical Proof | 3 |
| MATH 30224 | Linear Algebra | 4 |
| MATH 30524 | Calculus III | 4 |
| MATH 30603 | Interest Theory | 3 |
| MATH 30623 | Interest Theory II | 3 |
| MATH 30803 | Probability | 3 |
| MATH 30853 | Statistics | 3 |
| MATH 40603 | Actuarial Mathematics | 3 |

One of the following two tracks:

|  | Track 1 |  |
| :--- | :--- | :--- |
| MATH 50253 | Abstract Algebra I | 3 |
| MATH 50503 | Real Analysis I | 3 |
|  | 3 hours of electives 30000 or above |  |
|  | OR |  |
|  | Track 2 | 3 |
|  | 3 hours from: | 3 |
| MATH 40223 | Applied Linear Algebra | 3 |
| MATH 40663 | Numerical Analysis | 3 |
| MATH 40853 | Regression \& Time Series | 3 |
| MATH 40883 | Predictive Modeling | 6 |
|  | 6 hours of approved electives $30000+$ |  |

Associated requirements (27-32 hours):

| ECON 10223 | Introductory Microeconomics | 3 |
| :--- | :--- | :--- |

| ECON 10233 | Introductory Macroeconomics | 3 |
| :---: | :---: | :---: |
| ECON 30223 | Intermediate Microeconomics | 3 |
|  | OR |  |
| ECON 31223 | Intermediate Microeconomics: A Mathematical Approach | 3 |
| ECON 30233 | Intermediate Macroeconomics | 3 |
| ACCT 20353 | Fundamentals of Accounting | 3 |
| ACCT 40163 | Accounting for Decision Making \& Control | 3 |
| FINA 30153 | Financial Management | 3 |
| Two of the following: |  |  |
| COSC 20203 | Techniques in Programming | 3 |
| ECON 31223 | Intermediate Microeconomics: A Mathematical Approach | 3 |
| ECON 40313 | Econometrics | 3 |
| PHYS 20474 | Physics I with Laboratory: Mechanics | 4 |
| PHYS 20484 | Physics II with Laboratory: Electromagnetism and Optics | 4 |
| NOTE: ECON 31223 can be applied to satisfy associated requirements from two of the above lists. |  |  |
| One of: |  |  |
| COSC 10403 | Introduction to Programming | 3 |
| COSC 10503 | Introduction to Programming for Engineering and Science | 3 |
| COSC 10603 | Introduction to Python for Data Analytics | 3 |
| ENGR 10573 | Applied Programming Matlab | 3 |

## PROPOSED CATALOG COPY - as it would read

## (marked up version of current catalog copy follows this)

## BS Actuarial Science

## Requirements

Students seeking the BS degree are advised to consider an optional minor in economics. All actuarial students need to work closely with an adviser to plan course schedules.
Credit is not allowed for both MATH 10283 and MATH 10524.

## Mathematics Courses

The program of study requires a minimum of 43 hours, with a grade of $C$ - or better, on a 124-hour degree.

| MATH 10524 | Calculus I | 4 |
| :--- | :--- | :---: |
| MATH 20123 | Discrete Mathematics I | 3 |
| MATH 20524 | Calculus II | 4 |
