## Child Development Minor

### Requirements

The child development minor is a multidisciplinary program drawing upon the strengths of several colleges and disciplines.

Students wishing to earn the child development minor are required to take 18 hours of coursework. Courses must be selected from at least three different departments and may include the department of the student's major. No more than six hours may be taken from one department, and no more than three hours may be taken from Independent Studies and Special Topics courses combined. Case Studies in Child Development will be the only required course for students in the minor. Its interdisciplinary focus is designed to give students in the minor comprehensive insight into the issues of child development. Faculty are available within each of the departments to monitor availability and suitability of Special Topics courses and other special opportunities. Advising is available within the Child Development Program.

The program of study requires 18 semester hours:

### Required Course (3 hours)

Hi Amanda,

Thank you very much! I will use this email as agreement. I will have at least probably more graduate students in your class in the Fall.

I am appreciative of you allowing them in, I think it is so beneficial!!

Happy Friday,

Casey

Hi Casey,

I hope your summer is off to a great start. I am pleased that more Child Development majors will be encouraged to take the class. I value their knowledge and work ethic! As far as I know, all that you need is a letter (even an email) from me, stating that I approve your department's decision. Let me know how I can help.

The course is no longer a special problems course. The new designation is: *ARED 40103-045, The Therapeutic Arts*. In Fall, I plan to submit paperwork to make the graduate Therapeutic Arts course an official TCU course. Right now, it is still listed as ARED 60970-045, Special Problems: The Therapeutic Arts.

Sincerely,

Amanda

Hi Dr. Allison,

CHDV would like to officially add ARED 40973 to our list of electives for majors to choose from. Who would we ask for permission to do that from your department?

Thank you,

That is fine with COSD.

I would also ask that you remove COSD 30334, Language Development. Please replace it with COSD 30203, Language Development for Non-Majors. That is the course we developed and offer for non-majors, especially CHDV majors and minors.

THANKS!

Hi Lynn,

We are working on updating our CHDV curriculum and are reevaluating our electives.

We would like to remove the following COSD courses from our electives, as they best fit the COSD major and minor:

- COSD 10343 Basic Sign
- COSD 20333 Phonetics
- COSD 30343 Aural Rehabilitation
- COSD 50323 Counseling Special Populations & Their Families

I wanted to get your approval for these changes.

Please let me know if you would like to discuss this further.

Thank you so much,

I'm not sure if I am reaching out to the correct people or not, so feel free to tell me who to direct this question to.

In Child Development we are reevaluating our electives and we would like to remove CRJU/SOCI 30913 Social Psychology of Crime from our electives list.

Please let me know if you approve this change or not.

The course was actually listed in the Undergraduate Catalog and not the Graduate Catalog, but Cindy is correct it is only taught to graduate students. I'm not sure why a 5000 number was used as that is primarily a number for undergraduate classes. Yes, it is fine to remove this class from an elective in your program. Thanks for checking. This change is fine with our Department. Moving forward the course will be offered in the spring semesters and hopefully in the May terms. We are starting our graduate courses for our new MS in Dietetics, which has resulted in a shift in teaching responsibilities. Therefore, we will no longer offer the class in the fall semester moving forward. Please share this with anyone else who advises in CHDV students as well. Thanks, Gina

Hi Casey,

All of this sounds great to me. For Research Methods, yes it would be helpful to have fewer students, but student needs are more important - if you do think it is helpful to keep it as an AR, then we can absolutely accommodate that. But if you don't think it's needed we certainly don't have any objection to removing it.

Sounds like Papini is good with having Comparative Psyc be an elective and none of the other issues affect PSYC courses. I think this proposal is an exciting development for your programs!

**Subject:** CHDV curriculum updates

Hi Anna,

The KPICD Education Team has been working on updating the child development curriculum to better match how TBRI has developed over the years. We have made a slide show that shows the process and what it is currently and where we want to go. I have attached it. We have approval from the KPICD to move forward with everything and now I am seeking your approval.

I would love to talk with you about the plan, specifically about the items below:

1. Associated requirements: We want to propose a required CHDV research and evaluation course that would be required for CHDV majors. If that course is approved, we wanted to know if it would be helpful to remove PSYC 30503 Research Methods in Psychology as an associated requirement for CHDV majors. If it's helpful to have fewer students trying to get into PSYC 30503, we can remove it from the associated requirements. We are good with having our majors complete one or two research courses, either way.
2. BS Required courses:

- a. Add PSYC 30323 Child Psychology, CHDV 20123 Trauma Informed Interventions, CHDV 40493 Family Systems, and CHDV 30533 Dev Research and Evaluation
  - b. Move the following courses from required to electives: PSYC 30473 Comparative Psychology, NTDT 30113 Infant and Child Nutrition, COSD 30223 Language Development in Children for non-majors, SOWO 30843 Human Behavior and the Social Environment I
- 3. BA Required courses:
  - a. Add CHDV 20123 Trauma-Informed Interventions, CHDV 40493 Family Systems, CHDV 30533 Dev Research and Evaluation, and PSYC 30323 Child Psychology
- 4. Simplifying elective courses from Area A, B, and C to 5 electives for the BS and choose to 2 electives for the BA
  - a. Remove the following electives as they do not relate directly to child development, trauma, or intervention
    - i. COSD 10343 Basic Sign
    - ii. COSD 20333 Phonetics
    - iii. COSD 30343 Aural Rehabilitation
    - iv. COSD 50323 Counseling Special Populations & Their Families
    - v. CRJU/SOCI 30913 Social Psychology of Crime
  - b. Add the following elective for child life students
    - i. SOWO 40563 Death and Dying
  - c. Propose courses
    - i. CHDV 30533 Developmental Research and Evaluation
    - ii. CHDV 40273 Advanced Internship
    - iii. CHDV 50333 TBRI Intensive
  - d. Have two career paths
    - i. Child Life
    - ii. TBRI Practitioner
- 5. CHDV minor – update electives to match major

I wanted to give you all of the information ahead of time as to not overwhelm you. Let me know when we can set up a time to meet.
