Proposed changes to composition of TCU Undergraduate Council for balance and consistency

The following is proposed to University Council after passing Undergraduate Council. The purpose is to ensure the composition of the council is more balanced across TCU's colleges and schools. With three "large" units (AddRan, Neeley and CSE) that get three representatives each, 4 "medium" units (Fine Arts, Harris, Schieffer & Education) that get two each, and two "small" units (SIS and Honors) that get one each[1]. The following is an example of how that may be accomplished. Followed by a listing of guests that should be invited to each meeting.
