1. What is the justification for the change(s) requested?

This new major has a growing enrollment and thus courses specific for the major have been developed. It allows students to have course with content that is unique to the major with current content on interprofessional education and leadership development for teams.

2. If applicable, explain how the change(s) will affect the current program outcomes and assessment mechanisms.

Each course will be assessed each year as required by SACSCOC with reporting provided to TCU Assessment.

3. **Faculty Resources:** How will the unit provide faculty support for this change and any other impact this change may have on other current departmental listings.

Courses are being taught by current faculty as well as by one adjunct. The dean's office has the financial support for that individual.
