Briefly summarize the change requested:

We would like to change the course catalog to indicate that FINA 30153 is the one upper division course that CANNOT be taken concurrently with MANA 40153. Students can take one other upper division core course concurrently with department permission but this course is foundational to the material and needs to be completed in advance. This appears in two places.

1. What is the justification for the change(s) requested?

We routinely deny permission requests to students who want to take FINA 30153 concurrently with MANA 40153. Not only are they ill-prepared for the material in MANA 40153, they also put their team project at risk by not having the same skillset as others who did take FINA 30153. This new description will help the advising team to ensure that all students take this prerequisite prior to enrolling in MANA 40153 their senior year.

2. If applicable, explain how the change(s) will affect the current program outcomes and assessment mechanisms.
