Athens, Greece (American College of Greece)	New
Rome, Italy (American University of Rome)	New

### Program Review Processes to ensure adherence to SACSCOC requirements

- TCU Global Director reviewed Academic Agreements for the programs identified above in June, 2024 to ensure currency and appropriate
  - Academic structures and support
  - Health and Safety Support
  - Compliance with TCU policies related to IT, data privacy and similar.
- All new contracts were reviewed and approved by the TCU Contracts Office.
- All new programs were reviewed and endorsed by the TCU Global Academic & Curricular Advisory Committee
- TCU Staff visited each of the program locations. These visits include a review of specific elements of the program structure, academics and health and safety concerns. Items noted on most recent visit for attention:

- TCU Global supports adherence to SACSCOC/Department of Education requirements limiting the academic credit that may be applied towards a degree that is earned through a non-TCU course (i.e. delivered by another institution or mechanism such as AP).
  - TCU Global supports identifying students participating in two semesters abroad and notifying the relevant units.
  - No instances noted in the past academic year.
- TCU Global reviewed grade distribution and grade conversion metrics
  - Grade distributions: the Madrid program shows a higher number of non-passing grades than other programs and TCU global is taking steps to mitigate the factors contributing to lower grades earned by TCU students in Madrid.
  - Grade Conversions: No concerns noted.
