*The *Learning Outcomes* are statements of what we expect our students to know or be able to do upon completion of a course in that category.

**The *Student Action Steps* identify the process(es) that will lead to the intended *Learning Outcome*. As such, *Student Action Steps* must specify an action(s) to be taken by a student to fulfill a specific *Learning Outcome* and be reasonable within the context and time frame of the course. The *Student Action Steps* above are provided as examples of how students might achieve the *Learning Outcomes*.

- Provide 2 or 3 examples below that explain how students will, through the use of *Student Action Steps*, achieve the HMVV *Learning Outcomes* in your course. Be sure in your explanation to describe the work students will produce that will be evaluated to determine students' fulfillment of the Learning Outcome(s). You might describe specific writing assignments, for example, or include prompts from essay exams. Although useful, reference to your syllabus does not substitute for a written explanation on this page. To facilitate understanding, please use language accessible both to faculty who might be outside your discipline as well as to students who might see such language in a course syllabus.
- Attach a syllabus as a supporting document for your submission. Syllabi for HMVV courses should reflect the *Learning Outcomes* and the use of *Student Action Steps* that correlate with HMVV requirements.
- Attach an additional HMVV course submission form if this course is being submitted for a second HMVV category.
